

Waste Reduction Badge

The purpose of the Waste Reduction Badge is to support the waste management needs of units by helping them address challenges and opportunities for improving recycling and reducing waste.

Steps Towards Earning The Badge

For Step 1: Your unit will...

- Talk and gain approval from your unit leader
- Determine who will lead your unit through the badge
- Submit the registration form

For Step 2: The Office of Sustainability will...

- Schedule a site review consultation with your unit to check equipment and discuss opportunities.
- Send prep questions for your unit to complete prior to the site review.
- Generate a brief 1-2pg site review report for your unit.

For Step 3: Both parties will...

- Work on the site review report items.
- Your unit will create a support document and share it with your staff. This support document can take various forms but includes guidance for staff on recycling & waste reduction practices specific to your unit.

Benefits of Participating

- A professional waste review of your unit
- On-going support from the Office of Sustainability
- A digital badge to display your unit's achievements
- Your unit's name displayed on the Green Workplace webpage
